Season.

The fact that next Thursday will be Thanksgiving Day, if it does not rain, as any intermediate day would be under similar circumstances, was brought to the attention of the general public yesterday by THE DISPATCH reporters. As the Presispective of age, sex or previous condition of politics, annually agree with the National Executive, probably for the first time in some of their lives, the date was put before the citizens generally with the request that any data which the the citizens generally with the request that any data which they possessed for basing thankfulness upon might be produced. "I'm thankful I'm livin' was almost the universal response with a number of variations given

W. A. Philip Hoerr-I believe that I'm thankful I'm alive. You know that from the nature of things I can't do very much kicking, snyhow; a fellow can't use one leg nuless he has another to stand on. I have no foundation for kicking, and consequently I am grateful.

A. C. Robertson-Thankful! I should say I am. The tree bridge question is again before the public, and I want to have permission to walk from the First ward to the Thirty-fifth without being compelled to pay for the privilege of exercising my legs. That will make everybody thankful when the chance is afforded.

AMONG WORKMEN.

They Return Thanks for a Year's Stendy

and Prosperous Work. A number of men were seen yesterday among the mills to find out what they had to be thankful for. The Black Diamond Steel Works was visited as a likely place to get a general idea about what the workingmen thought of Thanksgiving Day. Mr. Tom Carrier, Superintendent of the open hearth department, said:
"The most conspicuous thing that I have

to be thankful for is that every applicant for employment in my department for the Water Bureau—I don't know yet, but I am past two months has obtained work. Be-pretty sure I will be thankful it the basin cause this has been the case it makes me extremely grateful, and I mean to appropriately celebrate it on the day appointed.

Another thing for which I will render thanks, is that in the slaughter of convivial resorts 93 were left where a man can repair his lost energies after a hard day's work by a 'deep draught of good Rhine wine.' Mr. David Murphy, a steel melter, said that he offered up thanks because he had had ten months' straight work in the past year. REPORTS OF INTEREST TO WORKERS

Mr. T. N. Ross, Master Workman of District 3, Knights of Labor, returned from Atlanta last evening. Speaking of the proceedings of the convention, Mr. Ross said: "It was the best conducted General Assembly ever held; everything was in perfect harmony. It was a strictly Knights of Labor conference, and it was remarked by old time delegates that they had never been present at a more thoroughly business-like and orderly conducted Assmbly. A new feature introduced was that the proceedings of the previous day were turnished to each

delegate next morning."
"What is the condition of the order?"
"Flourishing, and improving day by day. The membership was increasing from April to July, and the reports sent in to the Genspring will not take my situation away, as where the show a continual increase. A good many of the locals that had lapsed were making diligent inquiry into the best means of getting back into the order

> "I was talking with Mr. Powderly about it on Thursday, and he said that he did not know what it was about, but would inquire about it when he got back. I myself don't know anything about it, but imagine that there is very little in it. Mr. Powderly, anyhow, is not worried over it."

> "What action was taken in Evans' case?"
> "As far as Joseph Evans' case is conerned it was referred to the Executive Board at my request, as he was not there to detend himself. I asked that the cases would be treated separately for this reason, and because McGaw had the floor to make his own defense. McGaw's expulsion was due solely to his maligning and stigmatiz-ing the officers of the General Assembly, and for general unworthiness, and not at all in consequence of the part he took in the Jeannette importation case. The matter of McGaw's connection with this case was rought up by James Campbell, but the evidence produced was not of such a nature as to have influenced his expulsion; at least that is my opinion.' "How about John M. Kelly and William

McAuliffe? "Mr. Kelly's case was brought up, and on a point of order was referred to the General Executive Board for action. It was not discussed in the assembly. I have every confidence in the board doing what is just Auliffe's case was not referred to in any

It was said that over 1,600 Knights would be absent from the parade, and while about 800 of them, comprising the street car men, mixers and teasers and salesmen could not, by nature of their employment, turn out, there was no reason why the remainder should not make a showing .. LONG'S MEN WITHOUT PAY.

The Firm Owes Them for Three Weeks' Work, Amounting to \$7,000.

There was a considerable deal of discussion, and no little inconvenience exquence of Long & Co.'s shutdown. The men had been looking forward to receiving the two weeks' pay, and in addition, the 'lying' week, or week held back by the firm after the usual custom, but when 5 o'clock arrived intimation was made that no payments would be made. The firm employed about 250 men, distributed around the 19 puddling furnaces, the har mill and guide mill, the forge and outdoor departments, and the pay sheet would have reached the total of close on \$7,000. All the departments, with the exception of the forge, were running double. A meeting of the employes will be held on Monday, at Chartiers, to-consider what action should be taken in the matter.

President Campbell. Secretary George L. Cake, of the Window Glass Workers' Association, said last night that he knew of no new developments in the case of President Campbell and William Slicker. He had no information as to when Mr. Campbell would be home.

It was reported yesterday that the result

of the vote for a successor to President Campbell had been announced at the meeting of L. A. 300 on Friday night, but Secretary Cake denied the report last night. The voting sheets were only sent out last night, and the various local assemblies have not had time to send in their votes yet. The result may be announced at the next meeting. It is reported by those who seem to be posted on the matter that Patrick Cleary, of the Southside, will be the winner.

Mr. W. J. Lewis' Two Little Grandsons Were Lost in the City.

Two children of Dr. Robertson, of Hazelwood, were lost down town yesterday through the customary greed for knowledge displayed by youngsters. The two boys were driven down with an elder brother to get a ride about 2:30 P. M. vesterday. above the pedestal. The monument will be cut from Westerly granite, said to be the densest and most en-durable material for the purpose known. In color, it is a bluish gray, and is from the quarry adjoining that from which the material in the Frew and Clarke monuments in the Allegheny Cemetery was taken. The monument complete will weigh about 75 tons, and will be 19 feet high. The contract price is \$10,000, but when completed and unveiled, it will cost nearly \$12,000. It will be erected in North Park, opposite Webster street, with the horse's head directed toward Sherman avenue. This will make the statue to be apparently looking directly at

the greenhouse. If the model is correctly imitated, the statue will be a great work of art. The drapery about the uniform is well executed. The anatomical appearance of the horse is perfect. Mr. Pausch, who has already gained a wide reputation as a sculptor, will make the effort of his life in portraying the features of the immortal Father of his

Country.
The Monumental Committee has raised \$7,000 of the fund necessary to pay for the statue. On Monday \$2,500 will be paid to A. E. Windsor & Co., granite cutters of West End avenue, Allegheny, who have se-cured the contract for the erection of the

monument. MORE MONEY NEEDED.

This will make \$5,000 that will have been paid on the contract price. It is necessary to raise about \$4,000 yet, and arrangements are now being made for a fair to be held, commencing about December 20, and to continue for four weeks. A building will be erected especially for the purpose on the congregation, it is stated, has about 700 site of the old South Common M. E. Church,

on Church avenue.

The movement to erect a Washington Monument in the parks originated in June, 1886 through a suggestion made by Council-man Henry P. Staving, of the Third ward, Allegheny, who is a prominent member of the order, The suggestion was acted upon immediately, and in July of the same year a committee of three members from each of the 11 councils in Allegheny met in Common Council Chamber. A. S. Smith, of Young & Smith, was made the Permanent Chairman of the committee. The first thing to do was to secure the consent of the Park Committee to allow the monument to be placed in the parks. This was cheerfully

A Design Committee was then appointed, consisting of A. S. Smith, J. M. Huddell, A. B. Irwin, A. J. Neillie and Joseph Morris. The arrangements were pushed vigorously until the monument became an assured fact. It is intended to lay the foundation for the monument on the 22d of next February and have it completed and ready for unveiling the following year. The statue will be a great credit to the city and an improvement to the parks.

Another member of Trinity Church expressed the opinion that the conditions would be accepted by the vestry. The pews have been rented until next Easter, and no change can be made before that time. The rental from the pews is not as large as would appear to one unacquainted with the facts, and some of the members have for a time been dissatisfied with the system. On the other hand, it is suggested that there will be a very strong opposition from some of the oldest families in the parish to the ties on Carson street, with right resting at the south end of the Monongahela bridge. They will move at 1 P. M. The Second difree seat system. Quite a number of the best pew holders in the church would feel, vision will form on Liberty avenue, with right resting on Seventh street.
